

Finally, Discover How to Run Your Very Own WordPress-Based Membership Site by Using This WP Plugin... Starting Today!

This 9-part video course is designed to show you exactly how you can quickly and easily brainstorm, plan, and set up your WordPress membership site!

Dear Business Owner,

We all know that running your very own WordPress membership site is profitable, right?

If you're trying to sell your product online, or you would like to earn recurring incomes, setting up your very own membership site is crucial to your success.

Now, one of the biggest problems is that many people don't have access to a membership script that will allow them to complete what they want to do, and this is often because they cost a lot to run.

By using WordPress, you can make your site beautiful, but most of the plugins that integrate into it are...let's be honest, not great looking or user friendly.

Introducing Wordpress Membership Kick-Start

Video #1: Introduction

Before we jump right into creating a WordPress membership site, we want to begin by introducing you to the video course as a whole. There's lots to discuss regarding how to get into the right mindset so that you can successfully implement everything that you have learned.

Video #2: Mapping Out Your Product Menu

I know by now that you want to jump straight in to creating your WordPress membership site. But before you do that, we want to make sure that we set it up correctly, right? To do this, you will need to map out how your visitors will see your content, your video course, your eBook, your software, or whatever digital product you are trying to sell - first.

Video #3: Mapping Out Your Membership Site Funnel

Once you have completed the task in video number two, you will finalize the mapping process in this particular video. We will map it out using flow-chart software, which will allow you to actually see what your site will look like. Once you have completed this process, you will be one step closer to success, and implementing and setting up your WordPress sites will become a whole lot faster.

Video #4: Which WordPress Membership Plugin?

Now that you understand how your membership site looks, it's time to talk about different WordPress membership plug-ins that are available to you. This is in case you decide not to use the one that we have included. At the same time, we will discuss why we chose the one that is included and why we recommend that you use it as well.

Video #5: Access, Install, and Getting Started

In this specific video and the rest until the end of this video course, you'll be shown how to access this WordPress plug-in, how to install it correctly, and how to get things configured correctly.

Video #6: Creating A Product/Membership Level

Once you have configured your settings, it's time to set up your membership levels. This is a crucial process because it allows you to set up the skeleton or structure of your whole site.

Video #7: Content & File Protection

Next, this video will show you how to protect your content so that only paying customers will have access to it. Even more, you can also have it protected from people who have prying eyes.

Video #8: Completion

Congratulations - you have reached the end of this video course at this moment in time. This video will show you everything you need to know to finish up with your membership site and be in a position to receive recurring revenues on autopilot.

Grab this video course now so that you can start converting more webinar prospects into loyal customers!

Regards,
