

Finally, Discover How to Quickly and Easily Sell Your Products and Services on JVZoo...Starting Today!

This video course will take you behind the scenes to help you understand how to achieve this without spending days or weeks banging your head against the wall trying to figure things out.

From the desk of:

[Your Name]

Dear friend,

When it comes to selling your products and services online, you need to have the ability to take payments and deliver your product on autopilot.

You don't have time to deliver the products or services manually, do you?

To do this you need to have a good shopping cart platform that integrates not only with payment processors, but into your autoresponder system and everything else.

Now while this idea sounds great, the big problem is, how many of you have actually executed this concept successfully?

Truth be told, the majority of people we have encountered said that they hadn't.

They said that they "found it difficult to get the sales funnel set up so that they can begin to sell their products and services."

Does that sound like you?

Have you ever wanted to set up your sales funnel so that you sell the front-end offer with several upsells or one-time offers?

Well, if you're like most people, setting this sales follow-up is a very complicated and tedious process when you actually put it into action.

The reality is that the JVZoo shopping cart system provides you with tons and tons of features, but can still be an overwhelming and complicated process once you dive in.

Fortunately for you however, we have gone through the many days required to figure things out, and we can now teach you how to do it all.

Introducing JVZoo Funnel Simplified

Video #1: Introduction and Quick Overview

You're going to get a quick introduction to the video course itself so you know exactly what to expect. Plus, we will talk about the things that you will need before you get started.

Video #2: Overview of JVZoo Sales

Now that you have an idea of what this video course is all about, let's take a look at the JVZoo sales dashboard so you know exactly the different options that are provided to you. At the same time you'll learn which ones we will be focusing on so that you don't get overwhelmed in the process of figuring things out.

Video #3: Planning Your Sales Funnel

Before we can jump in and start mapping out your sales funnel, it's crucial to begin the planning process of your custom sales funnel. In other words, we need to figure out what types of products you will be selling, how you will be delivering those products or services, and making sure that you have the right items that you can enter into the shopping cart platform.

Video #4: Sales Funnel Mapping

At this point in time, you will understand the products and services and the one-time offers that you will be selling. Now it's time to take all that information and organize it by mapping out your sales funnel. This is the blueprint that will help you set things up in the future and it'll make life a lot easier for you.

Video #5: Add Product Details

When it comes to adding a product in the shopping cart system, there is a good amount of information that you are going to need. So, in order to prepare you we will go step-by-step through every single one of them to ensure that you better understand what you need to collect, so that you have everything in hand and are ready to go.

Video #6: Connect Autoresponder

When somebody buys your product and service you want to immediately and automatically add them to your email list, right? You don't want to have to manually add them like you had to a decade ago. So, I'm going to show you how to add different autoresponder systems to your account.

Video #7: Connect Payment Processors

In this particular video, we are going to show you how to connect different payment processors to your account to make sure that you are able to accept payments.

Video #8: Sales Funnel Setup

In this one, I'm going to teach you how to map out your products and services using the JVZoo sales funnel feature.

Video #9: Sales Button and OTO's

You'll learn how to add a sales button to your sales page in this video. While this process may seem somewhat simple, it can get complex if you don't know what you're doing, so follow me along and I will show you how. We're also going to discuss how to set up your one-time offers.

Grab this video course today and access it immediately after your purchase. No waiting in line, and even if it is 4am in the morning. You'll have instant access to this course in no time at all.

P.S. Watch this video course immediately after payment - there's absolutely no waiting!

P.P.S. Is your product sitting on your computer desk doing nothing? Unless you take drastic action right now, nothing is going to change. Don't wait any longer!
