This step-by-step video course shows you how to properly plan and setup your digital membership site, from start to finish. Simply watch over my shoulder and you can follow click by click.

From the Desk of:

[Your Name]

Dear Friend,

Did you know that the easiest and quickest way to create an automated online business, that produces reliable recurring income consistent day in and day out, is to start your very own digital membership site?

If you look around in the world around you – you’re bound to find a membership site everywhere. That’s because it’s immensely profitable.

The problem is – most people don’t know how to build one.

Or worse, you buy a membership script and never get around to setting one up because you’re stuck.

The reality is that setting up membership sites can become very technical. Most people buy the latest and greatest software script only to find that it’s too complex. There aren’t many tutorials willing to take you by the hand to show you either.

### **Introducing Surefire Member Automation**

Here's a breakdown of this 9-part video series in more detail.

#### **Video #1: Introduction and Tools**

You will be given a quick overview of each video in this video course and a brief introduction on how we will implement and set up your membership site. Next, we will discuss how to get into the right mindset, so that you can implement this at a faster and more successful rate. More importantly, we will discuss your specific needs first, so that you understand how to choose the right tools and strategies to apply to your own business.

## **Video #2: Your Products**

It's super easy to want to jump straight in and begin to set up your membership site. But that is the mistake that a lot of people make. What we need to do right now is to figure out what you are selling and who you are selling to, so that we can eventually map out how your membership site is going to flow.

## **Video #3: Price Points**

Now that we have discussed what products you are selling and who you are selling to, it's time to figure out how you will price your products and services. This is crucial because this tells us how and what we need to do in terms of your membership setup process.

## **Video #4: Map It Out**

Now, I will show you how to properly map out a flow chart, which will allow you to see each step of how to set up your membership site. This is often the overlooked part of the process that people tend to skip. Unfortunately, by skipping this, you will fail. So fortunately for you, you have access to this and will be one step ahead of your competition.

## **Video #5: Platforms**

In this video, we will be discussing different types of platforms that you can use. By knowing which platform you want to move forward with, you will figure out what script you will need to buy.

## **Video #6: Required Site Pages**

At this point in time, you should have a very good idea about what you want to do next. But before we talk about membership scripts, we need to discuss what types of pages you will be adding to your site. In other words, what is your user experience going to be like? This is very crucial because you can either make it or break it.

## **Video #7: Recommended Scripts**

Now that we have discussed the proper planning, we will discuss two different membership scripts that we have tested repeatedly over the years and have had success.

### **Video #8: Setting Up - Part 1**

Now, we will discuss how to properly set up one membership script. Because one script is very complex, we will show you what you need to do to outsource this process for a super cheap price.

### **Video #9: Setting Up - Part 2**

In this video, I, will show you the more in-depth process of finalizing your membership site by utilizing the one script that we covered in part one.

Follow this simple step-by-step system and start setting up your very own digital membership site!
